- **COMING 2024** - CARE Court
- Inpatient Psychiatric Hospital with Crisis Stabilization Unit
- Mental Health Continuum - \$22M in new investments

Behavioral Health Continuum Infrastructure Program (BHCIP) Overview

The Department of Health Care Services (DHCS) is providing **\$2.2 billion in grant funding** to construct, acquire, and expand properties and invest in mobile crisis infrastructure related to behavioral health.

DHCS is releasing these funds through six grant rounds targeting various gaps in the state's behavioral health facility infrastructure.

ROUND 1: CRISIS CARE MOBILE UNITS (CCMU)

\$163+ million to fund county, city, and tribal entity behavioral health authorities

(\$150 million BHCIP; \$55 million SAMHSA CRRSAA funds)

- This grant provides implementation of new and enhanced mobile crisis response teams (co-responder teams, behavioral health crisis intervention teams).

ROUND 4: CHILDREN AND YOUTH

\$480.5 million to fund children and youth-focused facilities

- Projects will expand treatment and service resources for Californians ages 25 and younger, pregnant and postpartum women and their children, and transition-age youth (TAY, ages 18-25) and their families.
- All grant awardees must align with Children and Youth Behavioral Health Initiative (CYBHI), California Advancing and Innovating Medi-Cal (CalAIM), and other DHCS efforts to expand access to behavioral health care services.

ROUND 2: COUNTY AND TRIBAL PLANNING GRANT

\$7+ million for planning grants to counties and tribal grantees

- This grant funding provides an opportunity for counties and tribal entities to expand planning efforts in their communities or regions for the acquisition and expansion of behavioral health infrastructure statewide.
- Required action plans include preparing for the construction, acquisition, or rehabilitation of behavioral health facilities.

ROUND 5: CRISIS AND BEHAVIORAL HEALTH CONTINUUM

\$430 million to fund projects focused on crisis services

- Projects will address significant gaps in California's behavioral health infrastructure, with consideration for funding priority to those that provide crisis services.
- Crisis can be due to mental health issues and/or substance use disorders (SUDs).

ROUND 3: LAUNCH READY

\$518.5 million to fund projects that are launch ready

- Funding to construct, acquire, and rehabilitate real estate assets to expand the behavioral health continuum of treatment and service resources.
- Awarded project proposals will go through a planning process and be ready for implementation.

ROUND 6: OUTSTANDING NEEDS REMAINING AFTER ROUNDS 3 THROUGH 5

\$480 million will be available in grant opportunities

- Part I RFA is anticipated in January 2024 and award announcements in July 2024. Part II is anticipated to follow the same time frame in 2025.
- The focus will incorporate the statewide needs assessment and identify any remaining unmet needs.
